

Gasoline Tea Harvester Machine is a manual machine used for harvesting tea leaves. It is designed to be used in tea plantations and is suitable for harvesting tea leaves in a large area. The machine is easy to operate and can be used by a single person. It is a good choice for tea growers who want to increase their harvest efficiency and reduce labor costs.

### Gasoline Tea Harvester Machine

Gasoline Tea Harvester Machine Specifications:

Model	GT-4 3
Harvesting Capacity	40/50/60 kg/h
Harvesting Area	35 m <sup>2</sup> /h
Harvesting Height	4 cm
Harvesting Speed	35 cm/s
Harvesting Angle	1.8°
Harvesting Width	1.35 m
Harvesting Depth	10.2 cm
